

SG Transport ID (IČZ)*:

--	--	--	--	--	--	--	--	--

* The ID number is assigned in advance by the logistics department of SaarGummi Slovakia, it can be requested by phone or by sending it to email. If you have been assigned this 9-digit ID number, note it in the table and use it at the self-service kiosk during the registration of the truck entering the Dolné Vestenice plant. By entering this number, you will significantly speed up the loading clearance process!

During your presence at all locations and premises of plants belonging to SaarGummi Slovakia, please observe the following instructions:

1. Do not enter the area on foot or with a vehicle without being asked! Unauthorized persons, including children and partners, are prohibited from entering.
2. It is forbidden to guide or let animals into the area.
3. Reversing of a truck is allowed in the area only with the assistance of a competent and properly instructed logistics worker.
4. The maximum speed limit is 15 km/h.
5. It is forbidden to create photos and videos.
6. It is forbidden to leave Wi-Fi and Bluetooth in the active state on your mobile phone and tablet.
7. It is forbidden to smoke and handle open flames.
8. It is forbidden to consume narcotic substances and beverages containing alcohol or to drive a vehicle under the influence of narcotics or alcohol.
9. Follow the instructions of the security service and logistics personnel.
10. It is ordered to use a reflective vest and safety shoes.
11. Be aware of moving forklifts and other trucks, stay close to your vehicle.

Procedure for entering the premises of the Dolné Vestenice plant

1. **Registration:** The truck driver must register in advance, before entering the premises, at the self-service kiosk located in front of the freight gatehouse marked with the sign CARGO
2. **Waiting for SMS:** After successful registration, the driver will wait to receive an SMS message confirming entry to the premises. The SMS message will contain information about the designated place (gate) for unloading or loading the goods. This information will also be displayed on LED panels located above the parking lot and driveway.
3. **Entering the premises:** After receiving an SMS message, the driver can continue to the premises, following the instructions of the logistics staff.
